EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Cathy Kodroff on February 12, 2007.

The application has been amended as follows:

IN THE CLAIMS:

135. (amended) A An isolated tropoelastin molecule produced by the method of claim 115.

The following is an examiner's statement of reasons for allowance: The rejections under 35 USC 112, first paragraph and 35 USC 112 second paragraph for inconsistencies in the sequences claimed have been withdrawn in light of the clarification of the sequences. The prior art of record does not teach or suggest a method of reducing susceptibility of tropoelastin to cleavage by making the claimed substitutions or the tropoelastin made by the method. Thus, the claims are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
